Route
Development
Committee

Bilbao, a world benchmark in urban transformation, bringing in 1,615,918 visitors and expectations of growth in events, tourism, business and investment.

Come fly with us.

Bilbao Airport Route Development Committee

Driving air connectivity in the city of Bilbao and the province of Biscay.

It acts as go-between for the airlines and various authorities in the Basque Country to assist with growth or implementation.

MEMBERS: Basque Government, Biscay Provincial Council, Bilbao Town Hall, Aena-Bilbao Airport and Bilbao Air, along with the Chamber of Commerce.

- Biscay
- Increasing visitor numbers
- Bilbao
- Hotels and accommodation
- Favourable seasonality
- Visitor profile in Biscay
- In pursuit of natural landscapes
- Rural tourism on the rise

Strategic central location on the European Atlantic

Bilbao is the capital of Biscay province, its largest city, and the Basque Country's economic and financial hub.

Biscay

1,152,651
people
live in the province of Biscay

2,217 km²
most densely populated area
of Basque Country

Basque Country

2,188,017
people
more than 52% of the population of Biscay

€33,896
PIB per cápita 2019.

Well above the figure for the State as a whole, similar to that of Europe's fully industrialised regions, and also above the EU-28 average.

European competitive region

Investment in R+ beyond the EU average.

With only 4.7% of the population of Spain, exports (chiefly to France and Germany) account for almost 9% of the total figure for the Spanish state.

Basque Country's innovation index is above the European Union average (103.6 compared to 100 for the EU).

Source: SPRI

Basque industry accounts for **24.2% of GDP**, and its main features are efficiency, quality, technical excellence and its commitment to **internationalisation**.

It is a region brimming over with talent. It has renowned R+D centres working side by side with the authorities to implement new production processes, enhance current processes and deploy Industry 4.0. Foreign investment grew by 75% in the Basque Country in 2021 to reach 1,537 million €.

24.2% GDP
Basque industry

Source: ETR Survey by Eustat. In-house. 2019

The Basque Country's GDP per-capita is 24% higher than the national average and its productivity is 130%.

Head office of leading multinationals

Companies based in the Basque Country lead the way in fiercely competitive sectors such as energy, aeronautical construction and rail infrastructures, bioscience, automotive, machine tools and shipping, among others. **Companies with a strong international presence, generating a significant flow of business travellers.**

Source: In-house.

Tourist destination with a prestigious brand

The Bilbao brand has a huge capacity to draw in visitors.

Guggenheim Museum Bilbao is a world icon, one of the 20th century's major architectural creations.

Worldwide example of urban regeneration.

Guggenheim Museum Bilbao

449.477

City
2018.**

Congresses and events with an international projection

Bilbao-Bizkaia has hosted major international events such as 'The World's 50 Best Restaurants' gala, which returns to the territory in 2021, the MTV Music ceremony, and the Rugby Challenge Cup. In the coming years, Bilbao will become the venue for the start of the Tour de France and the finals of the women's Champions League and the men's Europa League.

Unesco World Heritage sites

The Santimamiñe Cave, testimony to the earliest human art

The Way of St. James - Northern route, a pilgrim route with outstanding natural and historical heritage

The Bizkaia Transporter Bridge, one of the most outstanding examples of metal architecture from the Industrial Revolution

Avant-garde cuisine, with real appeal

A province that is home to Michelin stars, delicious pintxos (small bites), typical diches and outstanding wines such as Txakoli.

In pursuit of natural landscapes

Armañón, Urkiola and Gorbeia are the province's three natural parks, beautiful landscapes with spectacular waterfalls, peaks rising up over 1,000 m high and unique geological formations.

A universe where you can reconnect with nature and which also offers a wealth of adventure and leisure activities.

The Urdaibai Biosphere Reserve, an exceptional natural enclave stretching over more than 22,000 ha.

A safe airport at the forefront

Bilbao Airport, designated in 2019 the best on the European continent in the category of 5 to 10 million passengers by the Airports Council International Airports Council International (ACI) for the quality of the service it offers, its airport marketing proposals and its commitment to the environment.

It has been voted this year as the second best airport in Europe and ranks 24th among the world's major airports, according to the annual ranking of the air passenger rights organisation AirHelp.

New investments

- 
- New Technical Block.
 - Expansion of the boarding area.
 - New parking spaces.
 - Renovation of terminal signage.
 - Renewal of taxiway signage. LED technology.
 - Expansion of the width of several taxiways.
 - New DPC (Data Processing Centre).
 - Adaptation of hold baggage screening (EDS) to standard 3.
 - Shear monitoring system in collaboration with Aemet (Spanish Meteorological Agency).
 - Installation of an aviation radar.
 - Acoustic insulation measures.
 - Supply and installation of Passport Control equipment.
 - Improvements to Medium Voltage Electrical Distribution and Connections.

CONNECTIVITY

Block 3 **Connectivity strategy**

- Direct destinations from Bilbao
- Markets and new routes
- Summer Season 2022 Incentive
- Institutional backup
- Digital Marketing reference

Connectivity strategy

The connectivity strategy positions Euskadi as the main reference of this activity, as the gateway to the Bay of Biscay.

Air connectivity is essential to the city of Bilbao and the territory of Biscay to make them competitive as a tourist destination and promote economic development.

General objectives:

- **To boost the number of visitors to the Basque Country to drive tourism and the economy.**
- **To facilitate the globalisation of Basque businesses to connect them to key cities for the purposes of innovation and global economic development.**
- **To offer better connectivity so that passenger experiences bring about a better standard of living and greater demand for air transit services.**

Growth on
Asia routes

Growth on
airports with
<3M pax

100% discount

Passenger charge for the additional passengers on a route

Note: Must be requested only once before the end of the season that entitles the generation of the incentive.

Institutional backup

Working closely alongside the airlines, the institutions plan to arrange the following:

1. Co-marketing campaigns to publicise the new routes.
2. B2B events at destinations to generate business on the new routes.
3. Joint communication campaigns.
4. Incentive trips - famtrips and presstrips - to showcase the potential of the new routes for influencers, agencies and specialised and general communication media.
5. Promotional events in Bilbao- Biscay to launch the company's own campaigns or tourism campaigns for the cities linked.
6. Trade missions to boost business and institutional relations.
7. Assistance with local-level management with Basque companies and institutions.
8. Technical assistance in feasibility management and rollout of specific connectivity projects.
9. Airlines and other connectivity players can also publicise their businesses on institutions' websites, social networks and newsletters.
10. Arrangement of encounters with local press and organisation of press conferences.

A photograph of the Bilbao Airport terminal building at dusk. The building has a distinctive, curved, metallic facade. The sky is a mix of purple, pink, and blue. In the foreground, there are some trees and airport ground service equipment. A large blue circle is overlaid on the center of the image, containing white text. Several thin, colored lines (blue, green, red, white) cross the image diagonally.
